

Here's why we need your IMEI number

And how to send it to us

When you insure a cellphone, we need a record of its IMEI number. Why? Well, the number proves to us that the phone exists.

So, here's what you need to do, in 4 easy steps:

Step 1

Open up your phone's keypad (as if you're going to dial a number) and type in: ***#06#**

Step 2

You'll get a pop-up screen that looks something like this:

Step 3

Take a screenshot (how you do this differs from phone to phone).

Step 4

WhatsApp it to us [here](#) or email it to clientcare@kingprice.co.za

Remember, you're only covered if:

The IMEI number of the phone that you're claiming for matches that IMEI number that's noted on your policy schedule.

Questions? Call or WhatsApp us on 0860 50 50 50.

We're eager to assist.
